Production & Capacity Management

9/28 & 9/29 - KANSAS CITY

MAXIMIZING EXISTING CAPACITY IN PRODUCTION

Managing production in a collision center is a full-contact responsibility requiring focused attention. There are a lot of moving parts in this dynamic environment. Just getting by is costly!

Maximizing resources benefits the entire staff, business, the customer experience, and the businesses market position.

Topics Covered include:

- Understanding Capacity
- Throughput & Scheduling Models
- Communication for Production
- Error-Free Delivery
- Becoming Proactive vs Reactive
- Logical Work Distribution and more

Participants will experience exercises focused on production scenarios to apply the course learnings. You will learn key areas of focus for maximizing production potential. When applied these practices commonly translate to increased revenue, improved customer experience and greater profits.

Contact your ABS rep or call the store today to register. Please register early for this class as it will fill up fast!

We will be closed MONDAY, JULY 5th to observe Independence Day.

At **ABS** we are more than just about selling paint. We know the frustrations of the collision world and we want to help you. Here are a few of the **SERVICE DETAILS ABS** has to offer:

- We have a Certified Commercial Tech Rep on staff to help with your Fleet or Commercial needs. We also have two Certified Tech Reps on staff to handle collision repair & restoration needs.
- Our Tech Team will help provide solutions to any issues your paint shop may be having. From spray booth performance (air flow) to compressors, filtration, piping, airline contamination and restrictions.
- From time to time, issues come up with paint. Our team can help diagnose problems usually caused by contamination, application errors or equipment selection that will help in eliminating costly re-do's.
- Standard Operating Procedures - We can develop SOPs to ensure consistency in your shop. Do you want to control what products are used and what specific processes are to be followed during repairs? We can help set this up.
- We will help you to understand how your collision center's numbers fit within the national average and identify areas for improvement & cost savings.
